

Butler Elementary
\$9.20 A Day Daycare
Preregistration 2024-2025

It is that time of year to start looking ahead for our next school year and the need for after school daycare. In order to make the daycare viable, we need at least 15 registrations. We would hate to have to close our daycare, as it is a vital community service.

The cost of the daycare is \$9.20 (which includes yearly supervision fee.) per day when your child is registered as a regular 5 days per week. It is also available at an afternoon rate of \$9.20 per afternoon per day. Which is sporadic (after school 2:35 until 5:35).

It can also be open on P.P.Days provided if we have 15 children or more that are registered for that day. (You can register your child for just that day, at the cost of \$15.75 for the day without being a regular daycare attendant).

Early Registration

To give us an idea of student daycare numbers for the fall, please inform us either in by filling out the form and sending it back to daycare or by email, at (davittm@edu.etsb.qc.ca). If your child will be using the daycare next school year, regularly or sporadically. If you have registered for daycare service when you registered for the next school year, there is no need to send this back.

I am interested in the Butler Daycare services for the school year 2024-2025
